

2010 Bucher/Delta Annual Equipment Maintenance

KLR Machines announces our **Annual Equipment Maintenance** Program.

This is your opportunity to have a qualified, factory-trained technician check the condition and operation of your *Bucher* Press(es) and Delta Destemmer and Reception Equipment. At this time we can also review equipment operation and maintenance with you and your staff. Customers that have utilized the Annual Equipment Maintenance program reported 50% fewer problems during harvest.

Because of the large demand, and also to allow time to obtain any parts that may need replacement and to schedule the installation of these parts, we are encouraging early scheduling of this Annual Maintenance. **To make this early scheduling more attractive we are offering a 10% discount off the schedule below, if we are able to schedule and perform the Annual Service Before April 30, 2010.
